Kingston CompactFlash

Products: CF/32, CF/64, CF/128, CF/256, CF/512, CF/1024

Kingston's CF (CompactFlash™) memory cards offer an incredible combination of high storage capacity, fast data transfer rates, and great flexibility. CompactFlash offers the speed of a memory chip and the portability of a floppy, with enhanced capacity, all in the palm of your hand. With CompactFlash capacities ranging from 32MB to 1024MB you are sure to find the capacities you need. Most commonly used in such devices as digital camera's, PDA's and other portable products, Kingston's CompactFlash provides an easy method for quickly downloading and transferring digital files from your computer to the Internet. Our Type I CompactFlash cards can be used in Type II PC Card slots when you use an adapter such as Kingston's CF/ADP. By using a CF reader (Such as Kingston's FCR-U2CF or PCREAD/CF) it is also possible to upload files from your CF card to your computer via the USB or parallel port.

Optional Accessories
